

Reduction of maintenance costs ...

... by retrofitting to the self-adjusting brush!

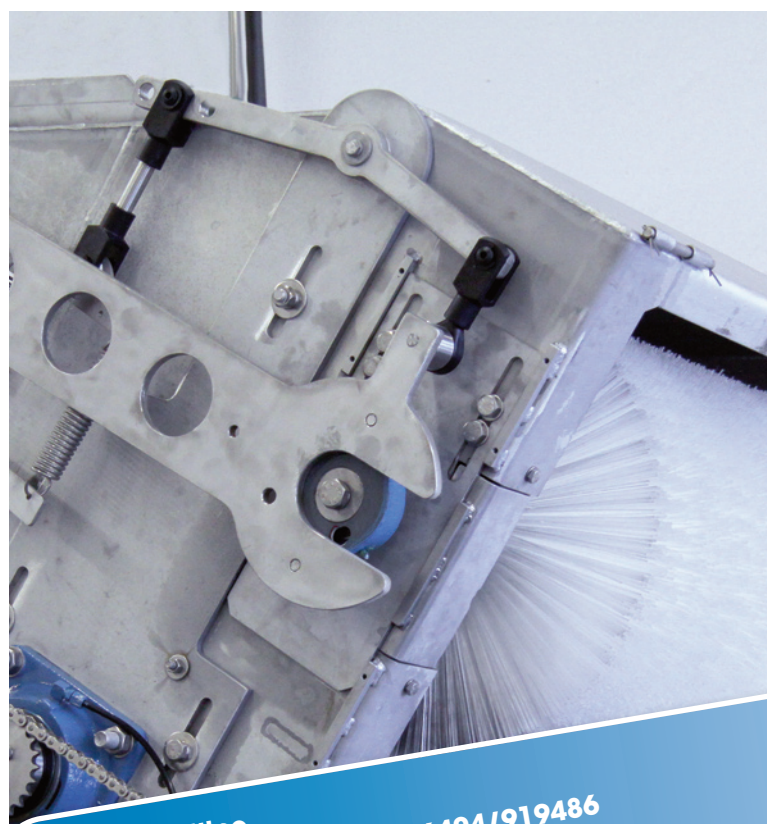

The conversion of the self-adjusting brush for the filter belt screen type FRS-2 has the following advantages:

- **Continuous readjusting brush**
- **Optimal cleaning efficiency of the filter baskets**
- **Reducing of maintenance work**
- **Longer service life of the filter baskets**
- **Brush shaft can pivot, no damage by coarse material**

Conversion or new construction
no problem

We will be glad to supply you
an individual offer!
